# First Aid Kit Roll-Out Small

Care Plus has been compiling professional first aid kits for more than twenty years, so when it comes to first aid, we've got you covered! There is a kit for every user, every activity, and every destination. With a Care Plus First Aid Kit, you can administer first aid should an injury occur. Many accidents take place in and around the home and while on holiday. This includes blisters, burns, and scrapes. Wounds need to be treated and bandaged, especially in hot and humid climates, where infection can develop rapidly.

As first-aid situations can be stressful, the Care Plus First Aid Kit Roll Out enables to act fast in case of emergencies. The roll-out system gives a clear overview of the contents. The five transparent compartments are easily accessible through the waterproof zip. The kits are made of lightweight water-resistant fabric making them practical for travelling, especially in case of limited space. There is still space left to add your own medication and extra first-aid accessories add.
