

The CP® Blister Plasters Ultimate: The Ultimate Protection and Relief for Blisters.

Blisters can be a painful and uncomfortable nuisance, often caused by friction and pressure on the skin. Whether it's for an athlete, adventurer, or simply someone who spends a lot of time on their feet, the CP® Blister Plasters Ultimate is designed to provide the ultimate protection and relief. This innovative blister plaster is specifically engineered to meet the demands of heavy-duty use while offering preventive care and supporting the healing process.

One of the key features of the CP® Blister Plasters Ultimate is its extra thickness, providing enhanced cushioning for your blisters. This additional padding helps to alleviate discomfort by reducing the pressure and friction that can worsen the condition. The blister plaster's unique construction offers optimal cushioning, allowing people to continue with their activities without worrying about pain or irritation.

The CP® Blister Plasters Ultimate is not just for immediate relief, they also play a crucial role in supporting the healing process. By adhering securely to the affected area, the plaster creates a 100% waterproof protective barrier that shields the blister from further damage while promoting natural healing. The plaster's breathable design allows air to circulate, aiding in the healing process by keeping the area dry and reducing the risk of infection.

## PRODUCT SPECIFICATIONS

**Article number**  
38207

**EAN code**  
8714024382074

**Content**  
5 plasters 42 x 68 mm

**Weight**
